

Resident Engagement and Communication Plan

**Peverel House,
4 Stour Road,
Dagenham,
Essex,
RM10 4JB**

**Barking &
Dagenham**

Welcome

Foreword

Housing is at the heart of our community's well-being, and we are committed to provide safe, affordable, and quality homes for all residents.

Building safety is non-negotiable. It's important we ensure our housing meets the highest standards of safety and quality.

We'll continue to work with you, providing key information on new regulations and what this means for you.

What's equally important is listening to our residents and involving you in how we manage and improve where you live – every step of the way.

We welcome your feedback and questions about how we maintain the safety standards of your home, because everyone deserves to have a safe living environment.”

Leona Menville

Strategic Director, Homes, Environment and Communities

1. Introduction

Building Safety is about managing and controlling risks that may result in the spread of fire or risks that could result in a structural failure.

The Building Safety Act 2022 was introduced in the wake of safety concerns for occupants of high-rise buildings, over 18 meters (7 floors) after the 2017 Grenfell Tower tragedy. The legislation is intended to improve the design, construction, and management of higher-risk buildings.

The new legislation also empowers residents in high-rise buildings to have greater say in how their building is kept safe. Residents will be able to raise building safety concerns directly to the owners and managers of their buildings.

We have developed a strategy which sets out how we will consult and engage with our residents that live in our tower blocks.

2. What is a bespoke Resident Engagement and Communication Plan

In May 2024, we sent you a copy of our Highrise and Complex Buildings Engagement Strategy which set out how we planned to engage with you in relation to building safety.

Alongside this strategy we also sent you a Resident Feedback Questionnaire since we wanted to know more about how safe you felt and whether you knew how to report fire safety concerns. Also, how you would like to be communicated with in relation to information that is available.

These questionnaires helped to inform this bespoke Resident Engagement Plan that has been created and personalised specifically for you and the other residents of Peverel House having considered your needs and preferences.

This plan sets out how we will work in partnership with you regarding specific arrangements for your building.

Resident Engagement and Communication Plan - Peverel House

3. Compliance/ Building Safety Team

We recognise the importance of keeping our residents and their families that reside in our tower blocks safe. We have restructured our teams, to include the following posts.

A Fire and Building Safety Lead who will lead on building safety aspects in relation to fire safety.

Fire Safety Surveyors who are responsible for checking that all Fire Risk Assessments have been completed within the correct timescales and all actions from these are commissioned and completed to a satisfactory standard.

A Resident Safety Engagement team is also being created so that you as our residents have a single point of contact for all things Resident Engagement related from a Building Safety perspective. You can find out more about who your Resident Safety Engagement Officer is by emailing us at housingservicesoffice@lbbd.gov.uk

Principal Accountable Person contact

The named accountable person for our high-rise buildings is:-

**E: housingservicesoffice@lbbd.gov.uk
London Borough of Barking and Dagenham
Town Hall Square, 1 Clockhouse Ave, Barking IG11 7LU
T: 0208 215 3000**

Resident Engagement and Communication Plan - Peverel House

4. What you have told us so far

Firstly, we would like to start by thanking those of you who took time to partake in the survey. Your valuable feedback has inputted to the creation of this plan.

We received responses from 23 households in Peverel House.

- We were pleased to see that of those households that responded 61% advised that they felt very safe or fairly safe. However, we want to improve on this and will continue to work hard to reassure the remaining 9% that felt neither safe nor unsafe and the remaining 30% that felt unsafe.
- Only 37% of residents that had taken part of in the survey, confirmed that they had read the High Rise and Complex Building Strategy. The general feedback received was that it was clear and easy to understand. We recognise that the document was long and have looked at other ways to share information with you in the form of infographics.
- Four residents came forward, in addition to those we already hold information for, to say that they or a family member would need help evacuating in the event of a fire or an emergency. Our Landlord Services Officer will contact these households.
- 96% of residents who responded confirmed that they knew how to report a fire safety repair in the communal area or raise a building safety concern.
- 96% of residents who responded confirmed they understood the part they had to play in keep themselves and their neighbours safe. We plan to send out further information advice on this and hold a training exercise in the near future.
- Two people informed us that they had specific communication needs, of which they requested larger font be used. These documents will be uploaded to our One Borough Voice platform with a page specifically designated for residents of Peverel. This site has a feature to translate documents in to alternative language and also enlarge them.
- We are pleased to see that there were five people who expressed an interest in forming a Resident Panel from your block. Our Resident Engagement Officer will contact these people and start discussions around forming a panel.

Reminder of useful information

- If you or a family members circumstances change, and you need help evacuating in the event of an emergency or a fire you can tell us by housingservicesoffice@lbbd.gov.uk
- Report a fire safety repair by calling our Repairs department on **0208 215 3000**. Please ensure that you inform the operative that this is fire related so that they can action this repair quickly.
- You can report a building safety concern by emailing housingservicesoffice@lbbd.gov.uk

5. Sharing information, how you wished to be communicated with

Based on what you told us you advised us that you preferred to be communicated with as follows:-

**PEVEREL HOUSE, 4 STOUR ROAD,
DAGENHAM, RM10 7JB**

BUILDING SAFETY FEEDBACK

**Barking &
Dagenham**

We recently invited you to complete a short survey to share your views on the types of information you want to receive in relation to your block, including health and safety. Thank you for taking the time to provide invaluable feedback which we've set out below.

Feedback

25% of residents in your block responded to our survey

We asked:

How safe do you currently feel living in your block/flat?

We asked:

How would you like to be notified of any works taking place within your block?

48%
said via letter

52%
said via email

0%
said via notice boards

0%
text message

We asked:

How would you like to receive health and safety information?

52%
said via letter

48%
said via email

0%
said via notice boards

0%
said via text message

0%
Short videos

We asked:

How would you like to receive block inspection forms?

61% via email
39% via post

We asked:

How would you like to receive Fire Risk Assessment reports?

61% via email
31% via post

We asked:

How would you like to receive Fire door inspections?

52% via email
39% via post

We asked:

How would you like to receive Fire Evacuation plans?

52% via email
48% via post

96% of residents were satisfied with the types of information you receive

96% of residents said they know how to report a fire safety issue or a repair to the communal area

Once again, we would like to thank all our residents who took time to take part in completing the survey. Your valuable feedback has enabled us to produce this plan which is bespoke to your block.

Should there be any further information about safety measures in your building that you would like such information may include (but is not limited to):

- The Full Building Safety Case Report and any assessments in the Building Safety Case report.
- How assets in the building are managed and maintained, e.g., frequency of lift maintenance.
- Information on the maintenance of fire safety systems.

If you put your request in writing to us and include your name, address, email address and type of information requested, we will then endeavour to get this to you within 10 days. If we are unable to provide the requested information we will provide you with a reason as to why.

We kindly ask that when requesting any information, you let us know how you'd like to receive that information. Where possible we will make best endeavours to ensure we can meet your chosen preference. Alternatively, if no preferred method is given, we would look to provide this electronically.

Resident Engagement and Communication Plan - Peverel House

6. Residents Panels

As a responsible landlord we want to do more to engage with our residents that live in our high-rise blocks on building safety.

As part of our efforts, we want to set up a Resident Panel that is made up of residents across our 32 high-rise blocks.

The Resident panel will be able to:

- discuss and influence what building safety decisions should be involved in
- input on how the impact of works on residents can be reduced
- explore how we can better communicate our messages and co-create our overarching Resident Engagement Strategy.

Resident Engagement and Communication Plan - Peverel House

7. Residents training

Our Resident Safety Engagement team will be looking to set up resident training which will likely include training on how to stay safe in your home. Further details on this will follow.

8. Resident Engagement Communication Plan Summary

Peverel House - Resident Engagement Plan Summary

Date 30 September 2024
